

Steps for Healthy Feet

General Health

- 1 Control your blood glucose levels.
- 2 If you smoke, quit.
- 3 Exercise daily as directed by your healthcare professional.

Caring for Your Feet

- 1 Look for signs of redness or blisters on your feet. This shows your shoe may not fit properly.
- 2 Wash your feet daily. Dry well, especially between your toes. Apply a moisturizer to your feet but not between your toes.
- 3 Do not soak your feet.
- 4 If you are unable to reach your toes or do not have feeling in your feet, have a healthcare professional trim your toenails for you.

Footwear

- 1 Shake out your shoes before you put them on.
- 2 Wear shoes at all times, indoors and out.
- 3 Buy shoes with closed toes as they protect your feet from injury.
- 4 Change your socks every day.
- 5 Buy shoes late in the day as feet tend to swell.
- 6 Have your shoes professionally fitted by a footwear specialist.

I will take care of my feet and make the changes needed to help keep my feet healthy!

This section is perforated for your personal reference.

Make the most out of your visit with your healthcare professional by asking these 3 questions:

1. What is my main problem?
2. What do I need to do?
3. Why is it important for me to do this?

Diabetes, Healthy Feet AND YOU

How healthy are YOUR feet?

Know the signs.

Are your feet...

Numb, painful or tingling?
Do your feet feel like blocks of wood?

IF YES

Changing shape?
Is one foot different than the other?
Any change is important.

IF YES

Dry, callused or cracked?
Do they have sores or blisters?

IF YES

What can I do?

- Control your blood glucose levels.
- Have a healthcare professional trim your toenails and care for the skin on your feet.
- Have your shoes professionally fitted.

- Avoid too much walking.
- Visit your healthcare professional as soon as possible.
- Have your shoes professionally fitted.

- Changes to your skin should be seen by a healthcare professional.
- Wash a sore or blister with warm water; dry well, and cover with a bandage. See a healthcare professional today.
- Avoid walking on your foot as it heals.

Please continue to check your feet every day for any changes or signs of injury.

If you have answered **YES** to any of these questions, please see a healthcare professional as soon as possible. Be sure to tell him/her that you have diabetes. Avoid using over-the-counter treatments unless directed to by a healthcare professional.

Have your healthcare professional check your feet **AT LEAST** 1-2 times per year or more if required.

Your Healthcare Professional Team

Chiropodists or Podiatrists: specialize in treating foot diseases, disorders and dysfunctions
